# About Electronic Scoreboards

Investing in an electronic scoreboard can revolutionize the dynamics of your sports club. The benefits extend far beyond the confines of the playing field, and include:

- Serves as a focal point of your sports ground, enhancing the overall atmosphere and spectator engagement.
- With vibrant displays and real-time updates, it transforms the game-watching experience, keeping fans riveted to the action and amplifying their sense of involvement. This heightened excitement not only boosts attendance and ticket sales but also fosters a stronger sense of community among supporters, fostering loyalty and enthusiasm for your club.
- Provides invaluable tools for coaches, players, and officials alike. To have instant updates to optimize performance.
- Provides a platform for dynamic advertising and sponsorship opportunities. This opens up a lucrative stream of income that can significantly offset initial costs and contribute to your club's financial stability.

In summary, the acquisition of an electronic scoreboard represents a savvy long-term investment for your sports club, delivering substantial returns both in terms of revenue generation and operational efficiency.

# About Electronic Signs Pty Ltd

Formerly Signtype Pty Ltd, Electronic Signs Pty Ltd provides the latest technology products for schools, churches and clubs, specialising in signage. We are an **Australian owned and operated company.**

We are the leading supplier of electronic signs to schools in Australia, as a result of providing the most advanced sign technology, and reliable after sales service.

At all times, both our products and service has been with the highest consideration to affordable prices and high quality.

We are also **retrofit specialists** – making an electronic sign upgrade an easy and streamlined process for you.

Our team are also experts at DA applications with local councils across NSW.

Over 400 schools in the Sydney basin alone proudly display one (or two) of our electronic LED signs.

# Software Technology

Our software technology is easy to use.

It is as colourful and impactful as scoreboard technology seen in major stadiums across the world.

The whole screen content is customisable and all features you would expect from a professional scoreboard.

The software can be customised and programmed for various sports including:

- Soccer
- AFL
- Rugby League
- Hockey
- Basketball

***You can write, upload, feed any content you like across the real estate of your board.***

***Cutting edge LED technology at your fingertips.***

## Baseball example

**Professional scoreboard with all features**

**Play videos and display scores**

**Or play full screen video**

# Software Technology – How does it work?

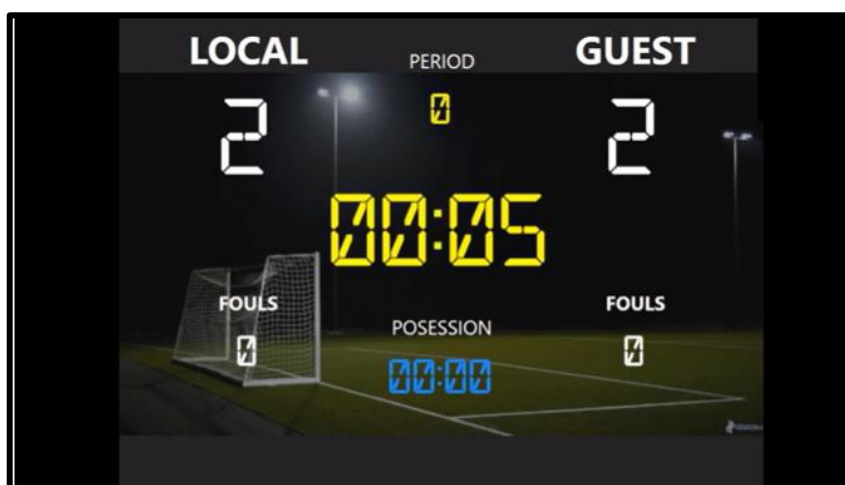

The software management system is customised to your sport.

Shown here is an example for basketball. No technical skills required!

## USER CONTROL IN THE FIELD
